PROJECTS

Tetouan Doctor | *Next.js · Django REST Framework · SQLite*

Full stack medical appointment booking platform. Patients browse doctors by specialty, view available slots, and book appointments. Doctors manage their schedule via a personal dashboard with JWT-based authentication.

Titawen | *Next.js · Django*

Full stack management system for a local dairy brand : inventory, orders, and reporting. Landing page features an AI-powered chatbot (Groq API) that answers customer questions about products and services.

Opticloud | *PHP · Next.js*

Optical store management SaaS : client records, prescriptions, inventory, and a modern landing page.

Nettocar | *VB.NET*

Desktop SaaS for car wash businesses : client management, billing, and service tracking.

Discover Tetouan | DiscoverTetouan.com | *js · Html · Css*

Tourist guide website for the city of Tétouan , launched and ranked on Google Search under "Discover Tetouan". Features local attractions, culture, and travel tips. Currently migrating to Next.js.

Azdoud | *Next.js*

Modern landing page for a car rental service.

GitHub Stats Explorer | *Next.js* · *GitHub API*

Search any GitHub username and view profile stats, repositories ...

Weather App | *Next.js* · *Weather API*

Real-time weather application with location search.

HT Nord | *Next.js* ·

Construction company landing page.
